

## **Roach Treatment Prep Sheet**

1. Please have your home clean and free of as much clutter as possible to ensure a proper treatment can be applied.
2. If you are able, vacuum any dead/alive roaches you find. Physical removal speeds up the time it takes to eliminate the infestation.
3. Plan on all people/pets vacating the property for 2 hours from the start of the treatment.

## **Post Treatment**

It is essential that any dead roaches be cleaned up and discarded. This step will assist in removing any unhatched eggs.

A follow up service may be necessary 2 weeks to 30 days after initial treatment.
